## March General Meeting

What an ADVENTURE!! **THE BRAIN ARCHITECTURE GAME**, led by Lori Collier, was quite the learning experience. The game demonstrated the impact of early childhood experiences on outcomes across the lifespan. It built understanding of the powerful role of experiences on early brain development– what promotes it, what derails it, with what consequences for society. Look at the teams all hard at work!

## May General Meeting – CANCELLED!

The safety and health of all STAND members and their families is a top priority to the organization. In light of the current COVID-19 circumstances and stay at home orders, the Board made the decision to cancel the May General meeting. May's presentation, led by Jamie Buffalo, will be postponed to the July General meeting.

Though the May meeting has been cancelled, be on the lookout for a special edition of the newsletter. It will provide information and resources valuable to members.

To learn more about previous presentations and future meeting dates, go to:
