## FINDING YOUR PURPOSE

How many of us struggle with our professions day-to-day? How can you keep the energy and excitement going even when the times get rough? Sometimes we begin our adventures, in work and in life, with vigorous gusto and see it slowly slip away into the pits of the mundane. Finding your purpose and how it applies to your day to day work life is an essential step to avoid stagnation. This workshop will explain what purpose is, how it relates to your work, and provide some tips to both find your purpose and maintain your commitment to that purpose. The conclusion of the workshop will be an activity that will help you create your own personal vision for your future!
